EXPLANATION OF RELEVANCE

Each of the above references was identified and discussed in the present specification, and Applicants stand by the statements in the specification concerning the teachings of those references. Translations of the non-English references are not readily available to the Applicants, however, the aforementioned statements in the specification concerning those respective references constitute summaries of their teachings.

Each of the above references also was cited by the German Patent and Trademark Office during examination of the German application corresponding to the present United States application.

Reference AL corresponds to co-pending United States Application Serial No. 09/359,004, filed on July 22, 1999 (Apparatus for Conducting a Diaphanoscopic Examination of a Living Subject," Rost). That application is currently under examination in Group Art Unit 2876, and is assigned to the same Assignee, Siemens AG, as the present application. This co-pending application can be used as a translation of Reference AL, however, it is not represented to be a literal translation. Applicants assume the Examiner has access to this co-pending application, and therefore have not burdened the present file with a duplicate copy. If the Examiner would prefer that a copy be provided, the Examiner is requested to notify the undersigned counsel for the Applicants and a copy of this co-pending application will be submitted.

Copies of each of the above references together with Form 1449 are submitted herewith.

As of the date of mailing of this Information Disclosure Statement, a first Office Action on the merits has not been received in connection with this application, and

therefore, this Information Disclosure Statement is in compliance with 37 C.F.R. §1.97(b)(3), and no fee is necessary.

All claims of the application are submitted to be patentable over the teachings of the above references, taken singly or in combination. Early consideration of the application is therefore respectfully requested.
